

ARE YOU A **MIDDLE SCHOOL OR HIGH SCHOOL STUDENT** LOOKING TO UNDERSTAND WHAT YOU MIGHT WANT TO PURSUE AFTER HIGH SCHOOL?

DO YOU LIKE ART, ENGINEERING, OR WORKING WITH YOUR HANDS?

SCHOOLS TO TOOLS IS HERE TO HELP YOU EXPLORE THE IDEA OF A CREATIVE AND SATISFYING CAREER IN THE UNION SKILLED TRADES.

NATALIE SIDOR

CARPENTER APPRENTICE
WITH MASTER'S IN SOCIAL WORK

"Not everyone's success looks the same. You shouldn't feel pressured to pursue a career you might not want, just because of someone else's expectations."

SOME OF THE CAREERS IN THE UNION SKILLED TRADES

CARPENTERS

Carpenters are involved in all phases of construction, from foundation to finish. Carpenters form concrete; frame wood and metal stud structures; hang drywall; install trim, doors, and cabinets; and so much more to build buildings, bridges, and specialty displays.

SO WHAT'S NEXT?

**DON'T WAIT TO EXPLORE
YOUR OPTIONS!**

Visit schoolstotools.org/students or [scan the QR code](#) today to learn more about and sign up for opportunities like **summer camp, career fairs, and parent programs**. Plus, learn how to prepare yourself for success in our apprenticeship program.

MILLWRIGHTS

Millwrights operate with incredible precision to install and maintain nearly anything that rotates or moves, including aligning motors and turbines at power plants, installing conveyor systems and machinery at auto plants, and erecting the distribution systems at the heart of advanced logistics centers.

WHAT'S AN APPRENTICESHIP?

A union skilled trade apprenticeship is so much more than just a job. It's a two -to four-year program that gives individuals the opportunity to learn and practice a skilled trade in their area of choice, opening the door to a rewarding career.

FLOOR LAYERS

From simple installations to complicated inlays that create beautiful patterns, floor layers are responsible for surfaces—tile, carpet, and polished concrete—that contribute to the aesthetic qualities of a building while also standing up to wear and tear.
